

# Standard Erklæring til M5.1 og M5.2

*It is the sole responsibility of the users of this template to ensure the provided information is correct.*

*The empty template solely provides guidance on the required documentation to comply with Regulation (EU) 2021/2139, regarding the technical screening criteria Appendix C ("Appendix C"). The empty template converts the content of Commission Notice C/2023/267 as well as the content of Appendix C. If the template does not match and/or contradicts the content of Commission Notice C/2023/267 and/or the content of Appendix C, then the content of Commission Notice C/2023/267 and/or the content of Appendix C shall have primacy over the content of this template. In case of doubt please refer to Commission Notice C/2023/267 and Appendix C.*

This declaration hereby declares that the below product meets all the requirements stated below.

## Product Information

<b>Product name:</b>	Pro Svum 05
<b>Product category:</b>	Repair mortar
<b>Producer:</b>	Pro-Tex A/S

## Information of the responsible declarer:

<b>Name of declarer:</b>	<b>Bianca Michelsen</b>
<b>Job title:</b>	<b>Quality Manager</b>
<b>E-mail/Phone number:</b>	<a href="mailto:bm@pro-tex.dk">bm@pro-tex.dk</a> <b>+45 4880 1217</b>
<b>Date:</b>	<b>06.06.2025</b>
<b>Signature:</b>	<i>Bianca Michelsen</i>

Please check the boxes that apply to the product. All boxes in the appropriate criteria must be checked to comply with the EU Taxonomy. **Ensure that both E5.1 and E5.2 are completed, where applicable.**

## E5.1 – Substances in Building components and materials

<input checked="" type="checkbox"/>	(EU) 2021/2139, Annex C, point (a) (Persistent Organic Pollutants (POPs)) Substances, whether on their own, in mixtures or in articles, listed in Annexes I or II to Regulation (EU) 2019/1021 of the European Parliament and of the Council, except in the case of substances present as an unintentional trace contaminant
<input checked="" type="checkbox"/>	(EU) 2021/2139, Annex C, point (b) (Mercury and mercury compounds) Mercury and mercury compounds, their mixtures and mercury-added products as defined in Article 2 of Regulation (EU) 2017/852 of the European Parliament and of the Council.
<input checked="" type="checkbox"/>	(EU) 2021/2139, Annex C, point (c) (Ozone-depleting substances) Substances, whether on their own, in mixture or in articles, listed in Annexes I or II to Regulation (EC) No 1005/2009 of the European Parliament and of the Council
<input checked="" type="checkbox"/>	(EU) 2021/2139, Annex C, point (d) Substances, whether on their own, in mixtures or in an article, listed in Annex II to Directive 2011/65/EU of the European Parliament and of the Council <sup>372</sup> , except where there is full compliance with Article 4(1) of that Directive.
<input checked="" type="checkbox"/>	(EU) 2021/2139, Annex C, point (e) (REACH Annex XVII (Restrictions list)) Substances, whether on their own, in mixtures or in an article, listed in Annex XVII to Regulation (EC) 1907/2006 of the European Parliament and of the Council, except where there is full compliance with the conditions specified in that Annex

<input checked="" type="checkbox"/>	(EU) 2021/2139, Annex C, point (f) (REACH art. 59, stk. 1, Candidate list chemicals) Substances, whether on their own, or in mixtures or in an article, in a concentration Above 0,1 % weight by weight (w/w), and meeting the criteria laid down in Article 57 of Regulation (EC) 1907/2006 and that were identified in accordance with Article 59(1) of that Regulation for a period of at least eighteen months.
<input checked="" type="checkbox"/>	(EU) 2021/2139, Annex C, point (f) (REACH art. 57 a,b,c, <b>Potential Candidate</b> List chemicals) The product, including individual components, does not contain substances in concentrations exceeding 0.1% (weight/weight) that meet the criteria for classification in one or more hazard classes: <ul style="list-style-type: none"> <li>• Carcinogenic category 1A or 1B (H340) according to section 3.6 in Annex 1 of Regulation (EU) 1272/2008 (CLP),</li> <li>• Germ cell mutagenicity category 1A or 1B (H350) according to section 3.5 in Annex 1 of Regulation (EU) 1272/2008 (CLP),</li> <li>• Reproductive toxicity category 1A or 1B (H360), harmful effects on sexual function and fertility or on development according to section 3.7 in Annex 1 of Regulation (EU) 1272/2008 (CLP).</li> </ul>
<input checked="" type="checkbox"/>	(EU) 2021/2139, Annex C, point (f) (REACH art. 57 d,e, <b>Potential Candidate</b> List chemicals) The product, including its individual parts, does not contain substances in concentrations above 0.1% (weight/weight) of: <ul style="list-style-type: none"> <li>• Persistent, bio accumulative, and toxic (PBT) (EUH440) according to the criteria in Regulation (EU) 1272/2008 (CLP)</li> <li>• Very persistent and very bioaccumulative (vPvB) (EUH441) according to the criteria in Regulation (EU) 1272/2008 (CLP)</li> </ul>
<input checked="" type="checkbox"/>	(EU) 2021/2139, Annex C, point (f) (REACH art. 57 f, <b>Potential Candidate</b> List chemicals) The product, including its individual parts, does not contain substances in concentrations above 0.1% (weight/weight) of: <ul style="list-style-type: none"> <li>• Endocrine-disrupting substances (ED) (EUH 380 og EUH 430) according to the criteria in Regulation (EU) 1272/2008 (CLP)</li> </ul>

If the chemical or product/s contains any of the previous substances listed in the table, specify the name, CAS or UFI number and % in weight. For products containing multiple construction products (eg. Kitchen fit-out) please also provide the names of each relevant product.

Product Name	Substance name	CAS or UFI number (Where applicable)	% Weight / Weight

## E5.2 – Emissions Testing (Where applicable)

<input type="checkbox"/>	(EU) 2021/2139, 7.1 – New Buildings, DNSH-criteria Building components and materials that can come into contact with residents emit less than 0.06 mg formaldehyde per m <sup>3</sup> of test chamber air when tested in accordance with the conditions specified in the relevant standard. The relevant standards that can be used are CEN/EN 16516 and/or ISO 16000-3 and/or EN ISO 717-1 or another equivalent chamber testing procedure. Standards used must be the applicable version, or a newer version that replaces the existing version of the standard.
<input type="checkbox"/>	(EU) 2021/2139, 7.1 – New Buildings, DNSH-criteria Building components and materials that can come into contact with residents emit less than 0.001 mg of other Category 1A and 1B carcinogenic volatile organic compounds per m <sup>3</sup> of test chamber air after testing in accordance with the applicable version of CEN/EN 16516 and/or ISO 16000-3 and/or EN ISO 717-1 respectively or another equivalent chamber testing procedure.

Product name (use additional lines for multi-product construction (eg. Kitchen fit-out))	Indoor Climate Label (Where attained)	Testing Standard:	Formaldehyde result [mg per m <sup>3</sup> test chamber air]	Category 1A and 1B carcinogenic VOC's result [mg per m <sup>3</sup> test chamber air]
